1. Site Plan should include:

- a. North arrow
- b. Address
- c. Property lines and easements
- d. Location of proposed shed with written distances from the shed to the rear property line, side property line, the house, and any other structures in the back yard.
- e. Location of any existing or proposed changes in grade to level a sloping yard for shed placement.

2. Design:

- a. Shed material such as: wood, vinyl, plastic or other
- b. Height of shed
- c. Total square footage of shed
- d. Description of base or slab foundation material
- e. Description of four corner anchors
- f. If pre-fabricated include a copy of the manufacturer's design specifications

3. Zoning Regulations: (for R-2 Zoning District) check with the City Office if you are unsure of your zone or easements

- a. 10 feet from the principal structure (your home)
- b. 5 feet from rear property line (unless there is an easement)
- c. 6 feet from side property line (unless there is an easement)

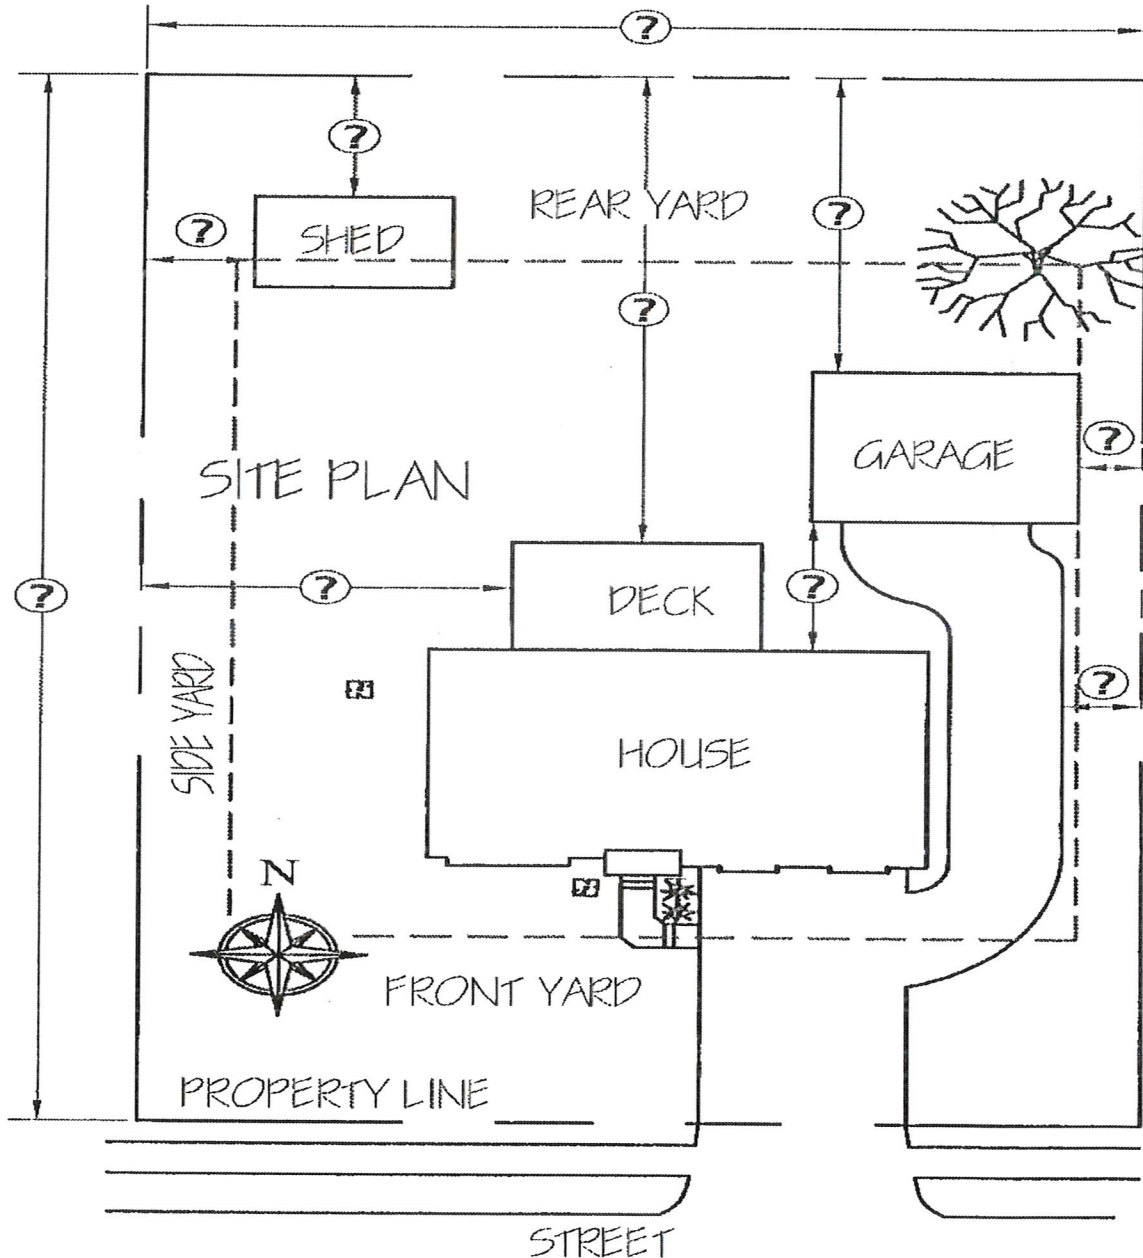

THE UNDERSIGNED HERBY CERTIFIES that they have read and examined this application and know the same to be true and correct. All provisions of law and ordinances governing this type of work will be complied with whether specified or not. The granting of a permit does not presume to give authority to violate or cancel the provision of any other state or local law regulating construction or the performance of construction.

Applicant Signature _____ Date _____

Plan/Permit Approved by _____ Date _____

Distances required on Site Plan

Distance minimums are dependant on the zoning. Additional neighborhood covenants and easements are the responsibility of the builder or homeowner.

All question mark sybols (?) (seen in site plan above) are required for plan submittal.
